HEALTH & SAFETY POLICY & STATEMENT

Glassco firmly believes in the significance of healthy and safe working practices of our employees, as it forms the fundamental part of the effectiveness and efficiency of our management.

Furthermore, we do acknowledge our commitment so far as is reasonably practicable in ensuring the health and safety of our employees, public health and not to endanger our environment.

It is our aim to prevent accidents and cases of work-related ill health, as well as to provide adequate control of health and safety risks arising from work activities

To ensure effective implementation of this policy, Glassco will ensure the following policy commitment:

- To provide adequate training to guarantee employees are competent to do their work, to implement emergency procedures in case of fire or other significant incidents
- To engage and consult with employees on day-to-day health and safety conditions and provide advice and supervision on occupational health. To provide and maintain plant, equipment, and machinery.
- To ensure safe storage/use of raw materials.
- To maintain safe and healthy working conditions.

We will achieve this by undertaking relevant risk assessments and ensuring action required to remove/control risks will be carried out. We will check that the implemented actions have removed/reduced the risks and will report the findings of the risk assessments to all relevant employees. We will review assessments annually or when the work activity changes, whichever is soonest. The individuals identified in this policy have been allocated specific responsibilities.
